

# Domain Management: Anytime, Anywhere!

## Smart-NiC Services

With our **thorough, step-by-step approach**, we think and plan through every potential situation to deliver the best products possible. We offer extra features like: "Domain Vault" to protect against accidental deletion or removal of your domains. Our "Integration I.Q." options include SOAP/XML or MAIL API which can seamlessly integrate into your own system or reselling store-fronts, or try our integrated SSL Certificate ordering process.

## Relationship Builders

**The Smart-NiC philosophy is to consider each client as an associate.** We believe in beginning our relationship with a clear awareness of conditions, stipulations and pricing structure. Our company is designed around building and growing relationships with clients. We establish and maintain these relationships through our reputation of reliability and total clarity.

## Cost Transparency

Our transparent and flexible pricing package assures that you will not experience any hidden costs or "embedded calculations". There is no penalty for adding domains or services. It's simple; we offer domains for a very low price and charge a fixed monthly domain management system fee based on the options you choose ... no hidden costs!

## Intelligent Web Interface

The **Smart-NiC domain management solution** has "I.Q" or, in other words, a smart interface to recognise any registration obligations and guide you through the steps to satisfy the requirements of each individual registry. The Smart-NiC domain manager navigates you through the process quickly and easily resulting in immediate worldwide access to manage your domains.

## Solid Support

**Your business is a priority to us.** Smart-NiC is concerned with treating your business transactions with care, thought and attention. Smart-NiC is here to provide you with a solid foundation on which to grow. We welcome your questions or concerns regarding technical issues with your domain or how to add more domains to your expanding portfolio.

## Flexible Pricing Structure

**Our intelligent pricing is based on quality, not quantity.**

Buy a few or many: you pay for only what you need. Smart-NiC works with you to review the details to make sure that you have the right features and options for your projects.

# Smart Pricing!

## About Smart-NiC

As international experts in domain registration and management, Smart-NiC uses tools with an "I.Q." to help clients simply, quickly and efficiently register and manage domains. Our company is centered on building a long-term, trusted relationship with clients requiring a smart, easy and friendly way to register and manage domains. We specialise in all levels of domain management including custom consulting for special applications.

Smart-NiC works directly with resellers, webhosters and internet agencies, as well as organizations that have amassed their own domain portfolios. Our Smart Pricing package features transparent pricing, focused on delivering only the services that our clients require. Anytime, anywhere; manage your portfolio 24/7 with web access.

The Smart-NiC ideology is simple. We offer:

- *Smart & easy interfaces*
- *Smart & reliable customer service*
- *Smart & flexible price package*

Like other quality brand leaders from Germany, our mindset is to thoroughly think through the process to make sure that we are delivering the most intelligent and complete product possible. Our reputation and relationship with our clients is our first concern.

We encourage your questions and comments regarding how we can assist you and your domain management needs.

**Smart-NiC offers a smart price package starting at \$49 USD per month.**

This low price offer begins with your first domain and continues as you add to your portfolio. The package covers every function you need to access, register and manage all your TLDs. Additional options like "Domain Vault" or our "Integration I.Q." options like SOAP / XML API can also be added.

"Smart-NiC Global" starting at \$49 USD per month includes access to low domain prices (starting from your first domain):

# Some Popular TLDs:

TLD	Price per year*
.ASIA	\$ 11.99 USD
.EU	\$ 6.99 USD
.DE	\$ 3.99 USD
.COM	\$ 7.99 USD
.NET	\$ 6.99 USD
.ORG	\$ 7.99 USD
.BIZ	\$ 7.99 USD
.INFO	\$ 7.99 USD

\*additional costs may apply

The Only Domain Provider with I.Q. Some of our Smart options include: Smart Management Interfaces, Domain Vault and SOAP/XML API.
